

wipshot

The bullseye platform for remote teams

To collaborate, review, and manage work from anywhere efficiently and precisely.

Give Feedback Efficiently & Precisely

No more screenshots and taking notes! wipshot is a smart way to review and collaborate efficiently without compromising accuracy. And it's easy as 1-2-3.

Streamline Workflow

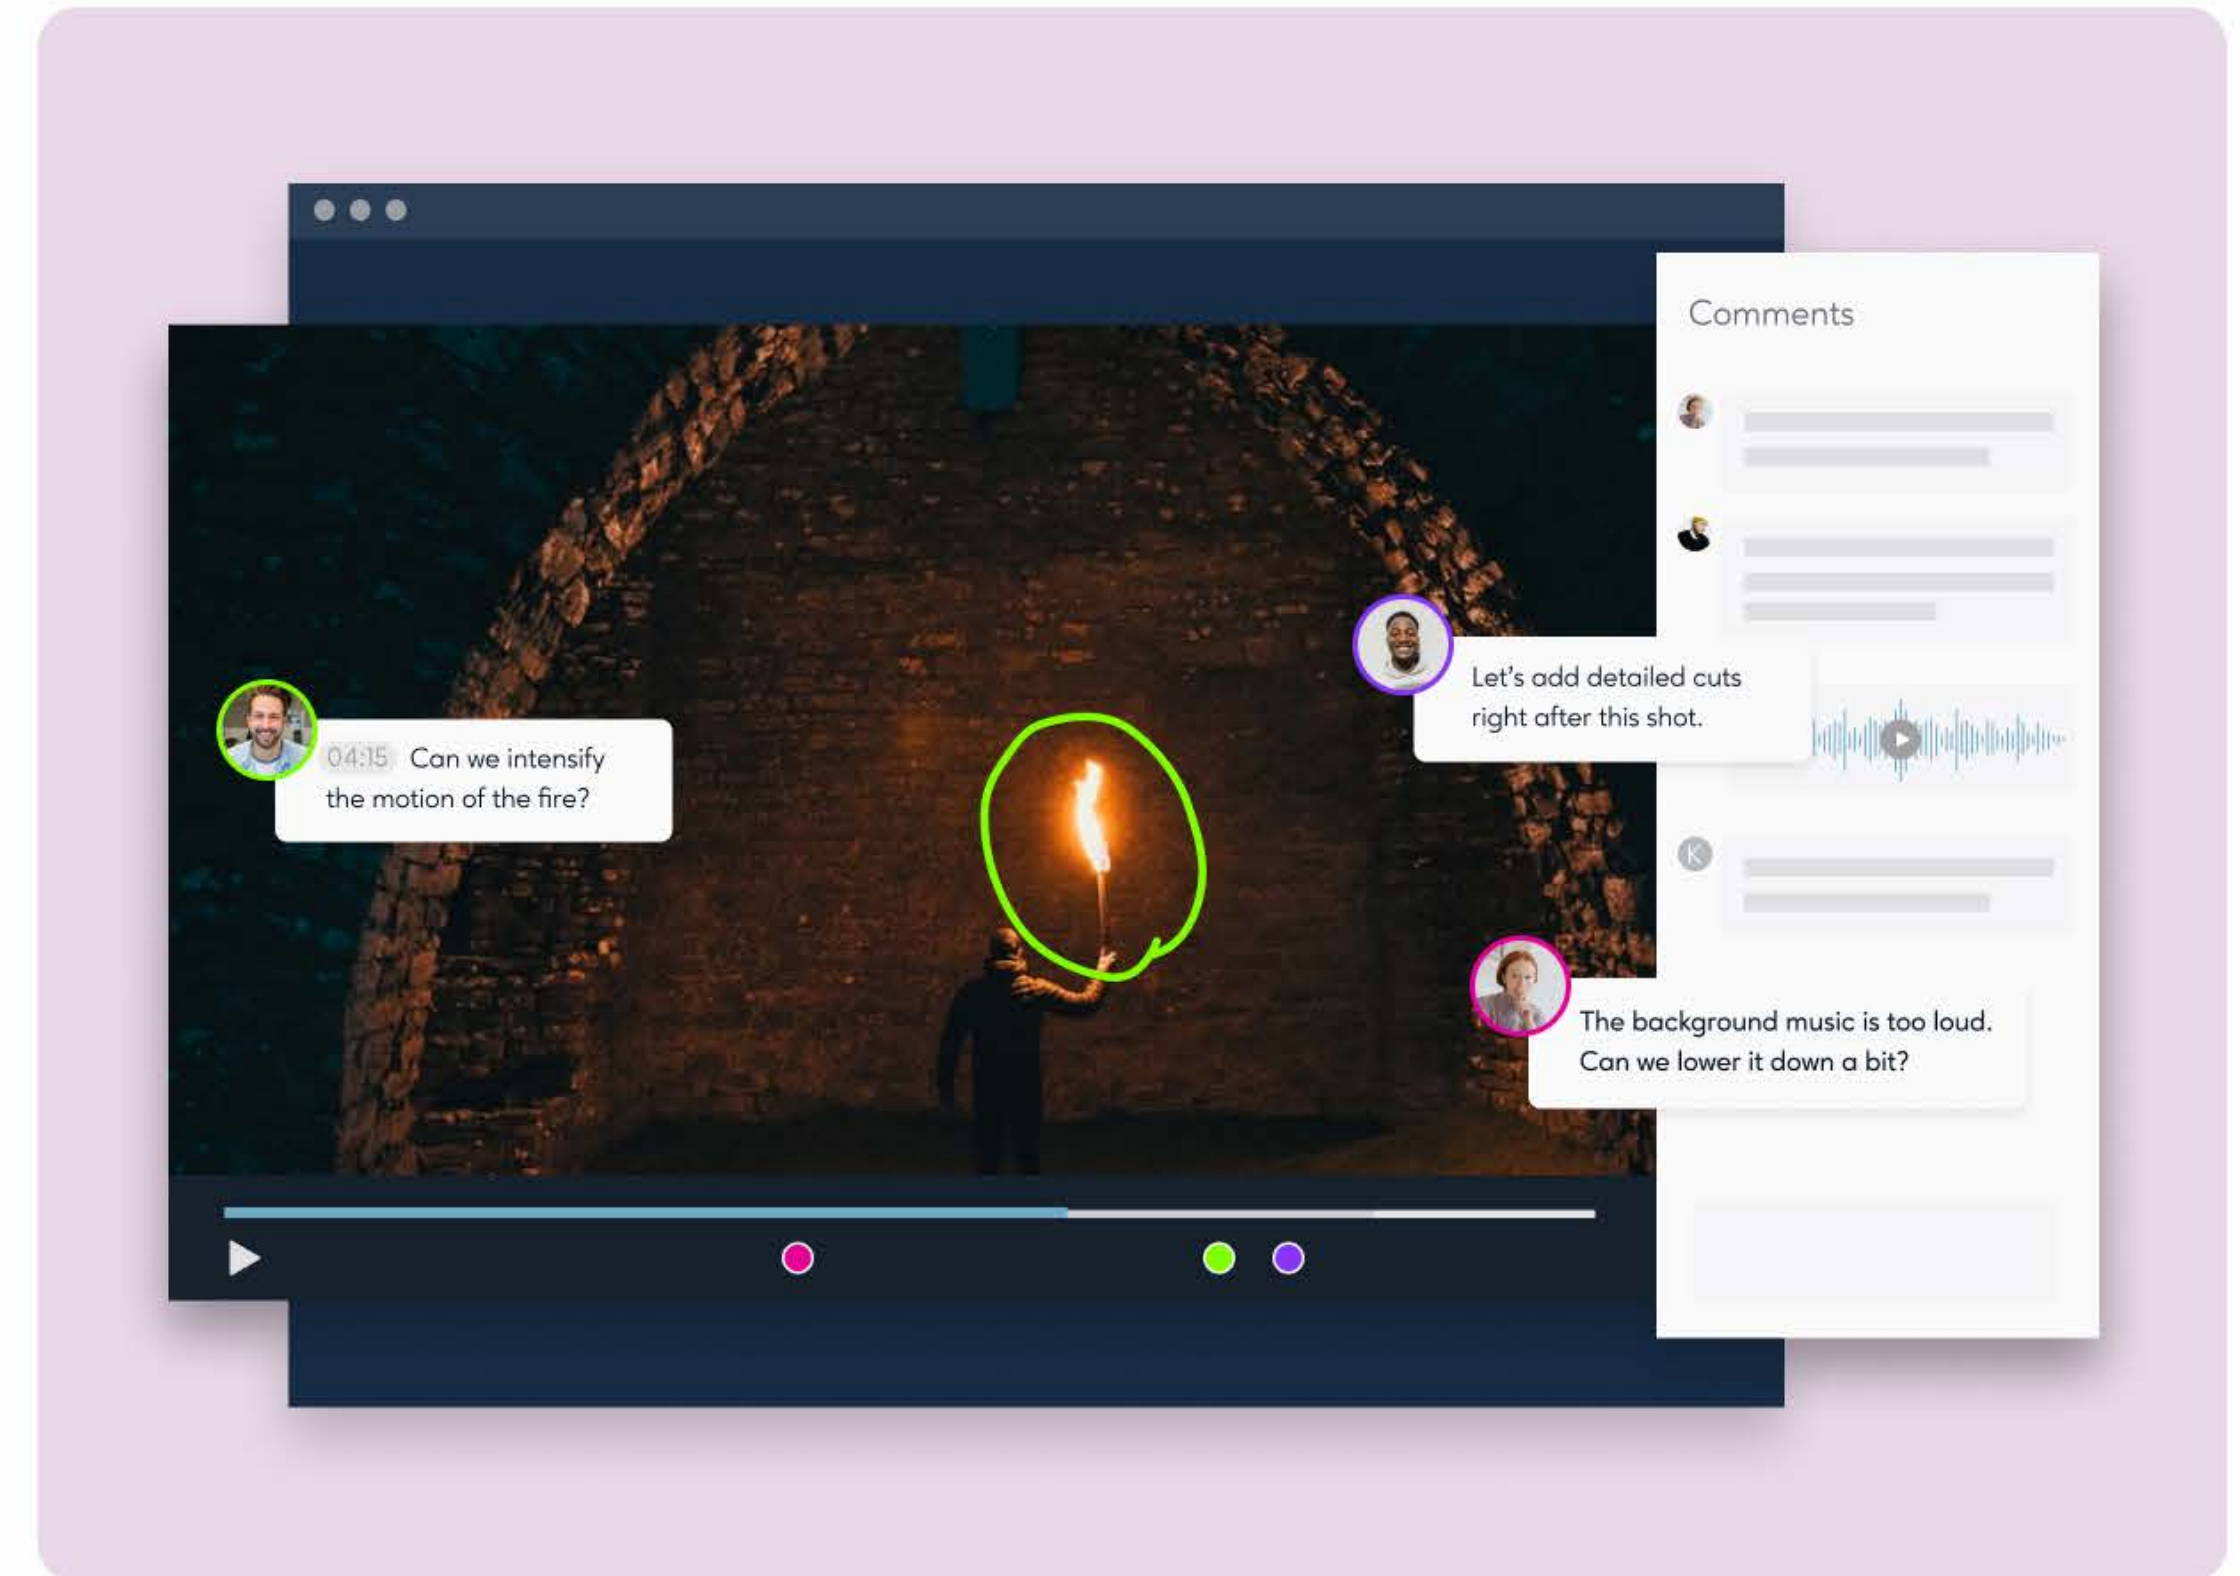

Designed specifically to give and receive feedback most efficiently so projects can move quickly. Streamlining your communication workflow means more productivity and less work.

All-In-One Communication

No more dispersed communication. From draft to final cut, communicate to collaborate all in one space.

Video Timecode Comment

Enabling the most intuitive way to share feedback: text or voice comment directly on any frame or frame range without the hassle.

Review Easily Without Download

Share easily and instantly with just a link. Large video? No problem.

Share without File Transfer

Transfer your ideas, not the files. Check video projects with any one of your devices without downloading or transferring them since they're stored in our cloud.

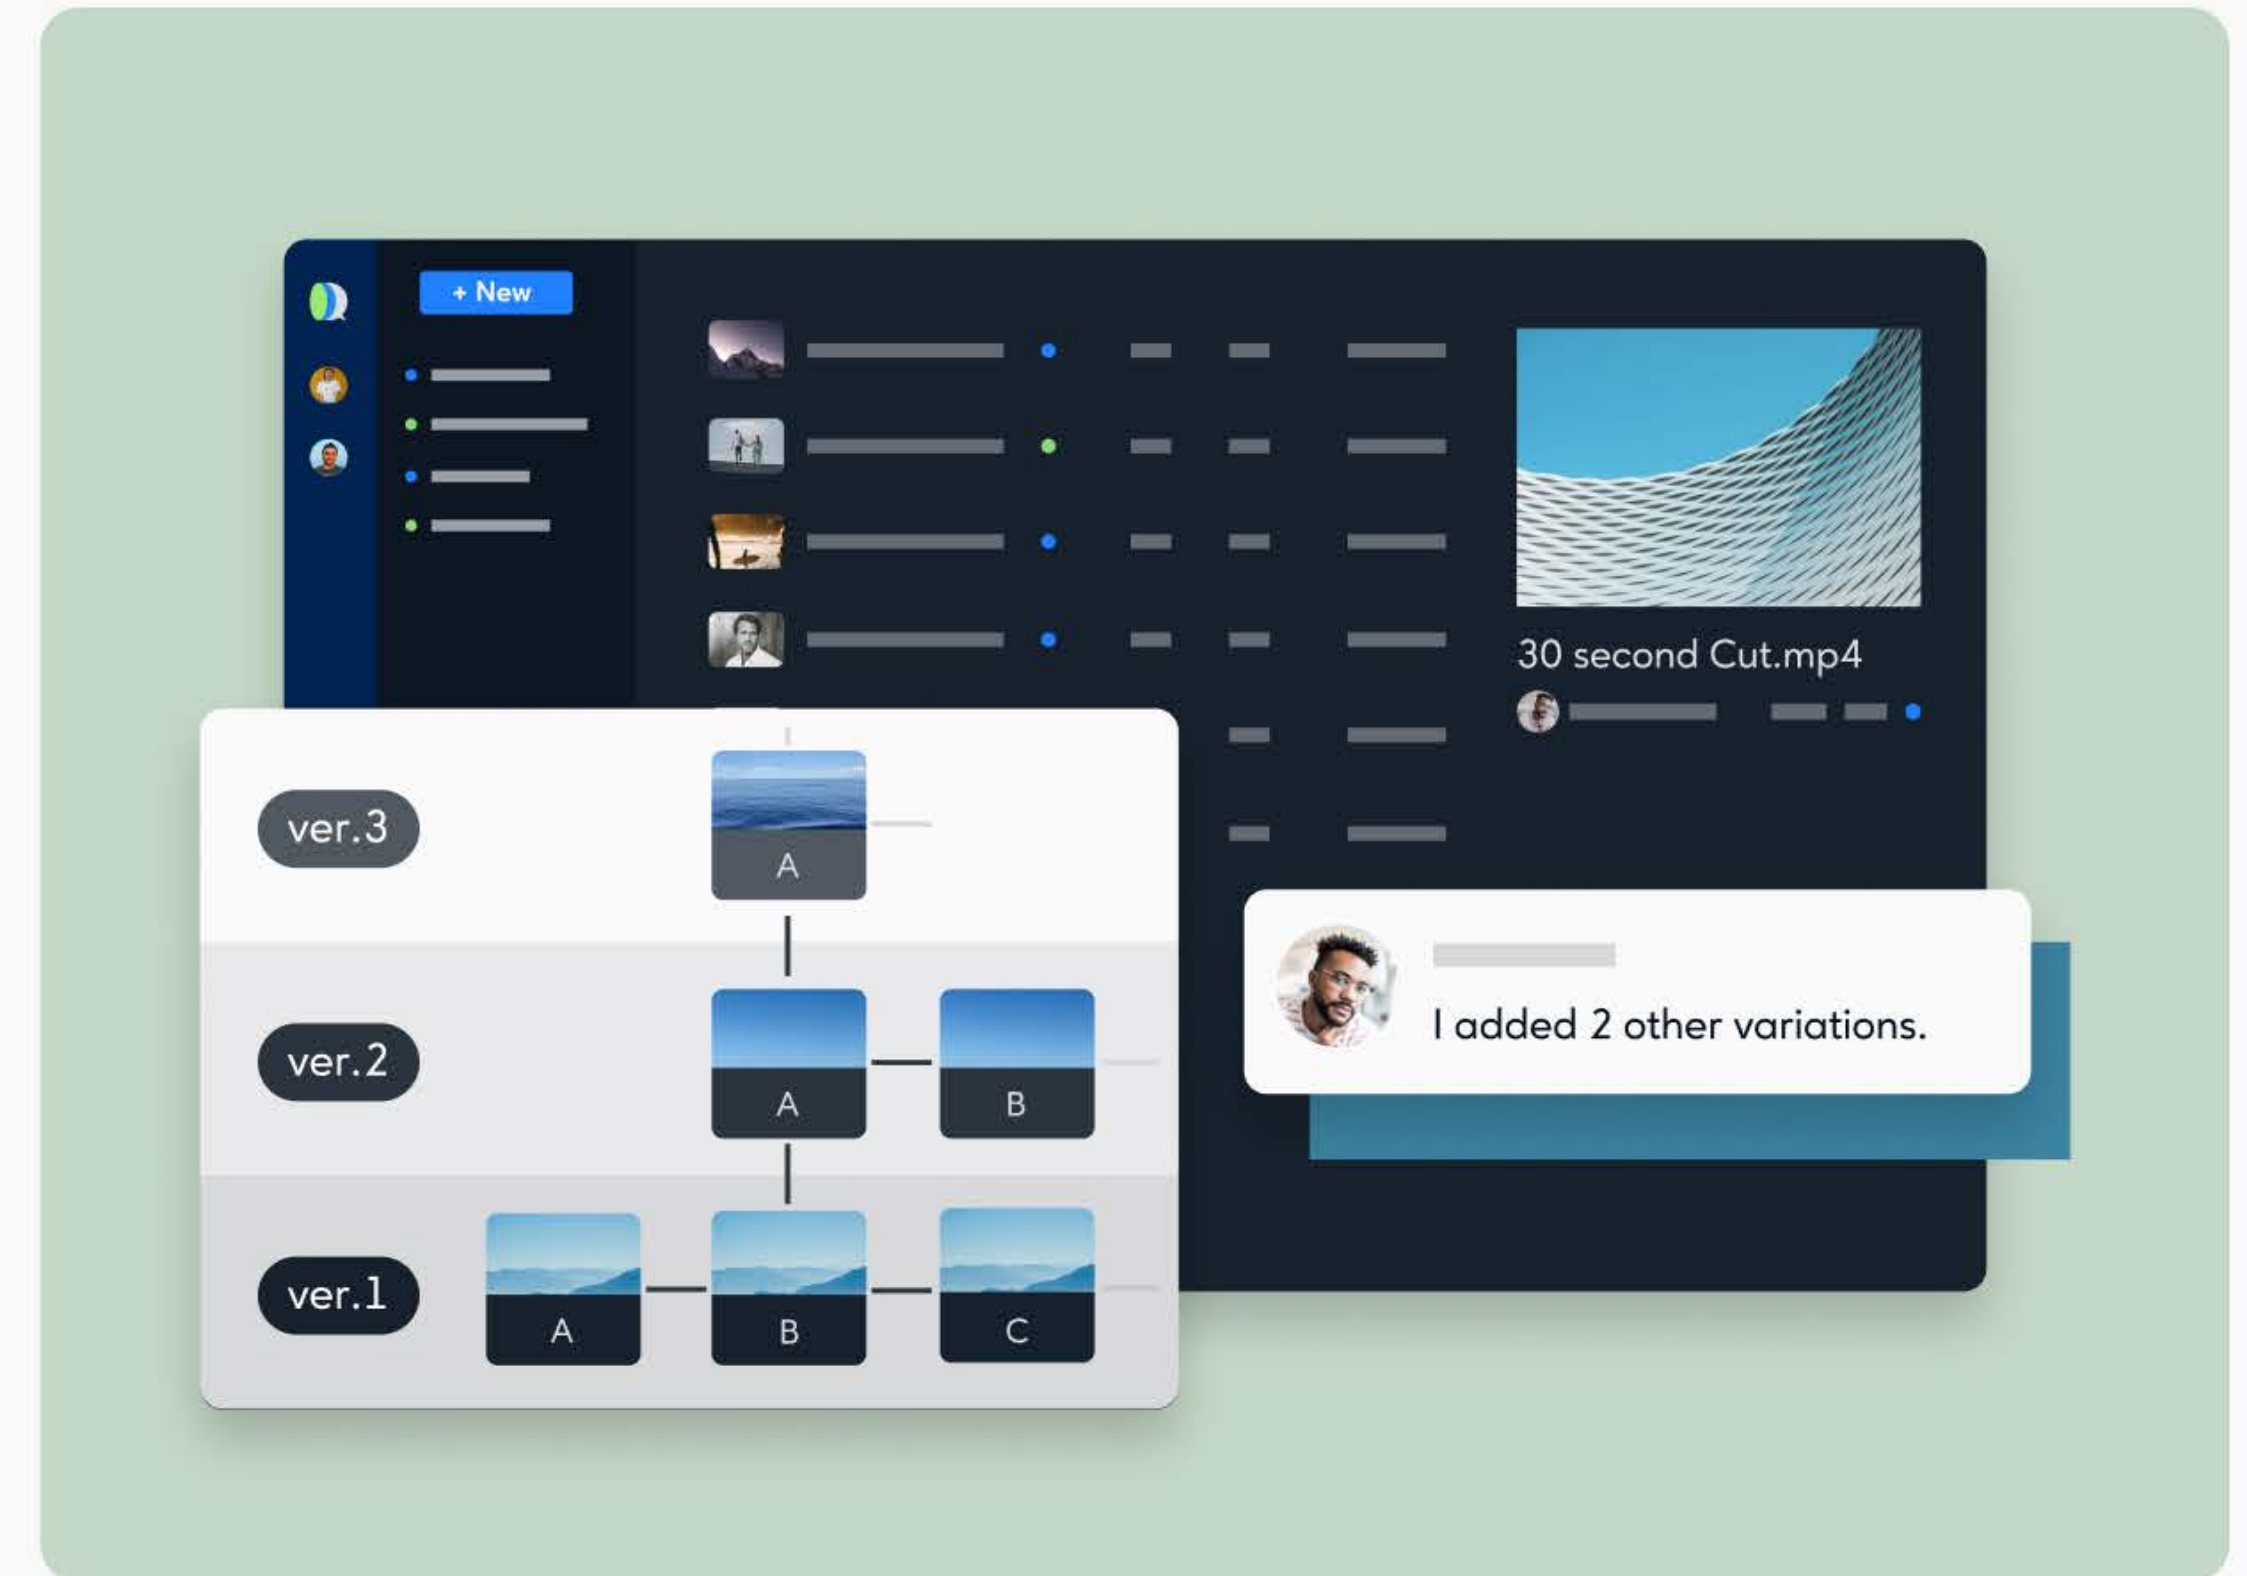

Store and Manage

Save your entire team's video project in one place and auto-manage systematically. wipshot's version management system will automatically organize your files for you.

One Link Invite

No sign up or log in required.
Share a secured link for review and feedback.

Secure the Entire Team's Work

All files shared on wipshot are encrypted and stored on the server permanently, unless intentionally deleted by a person with authority access.

The Most Robust Security System

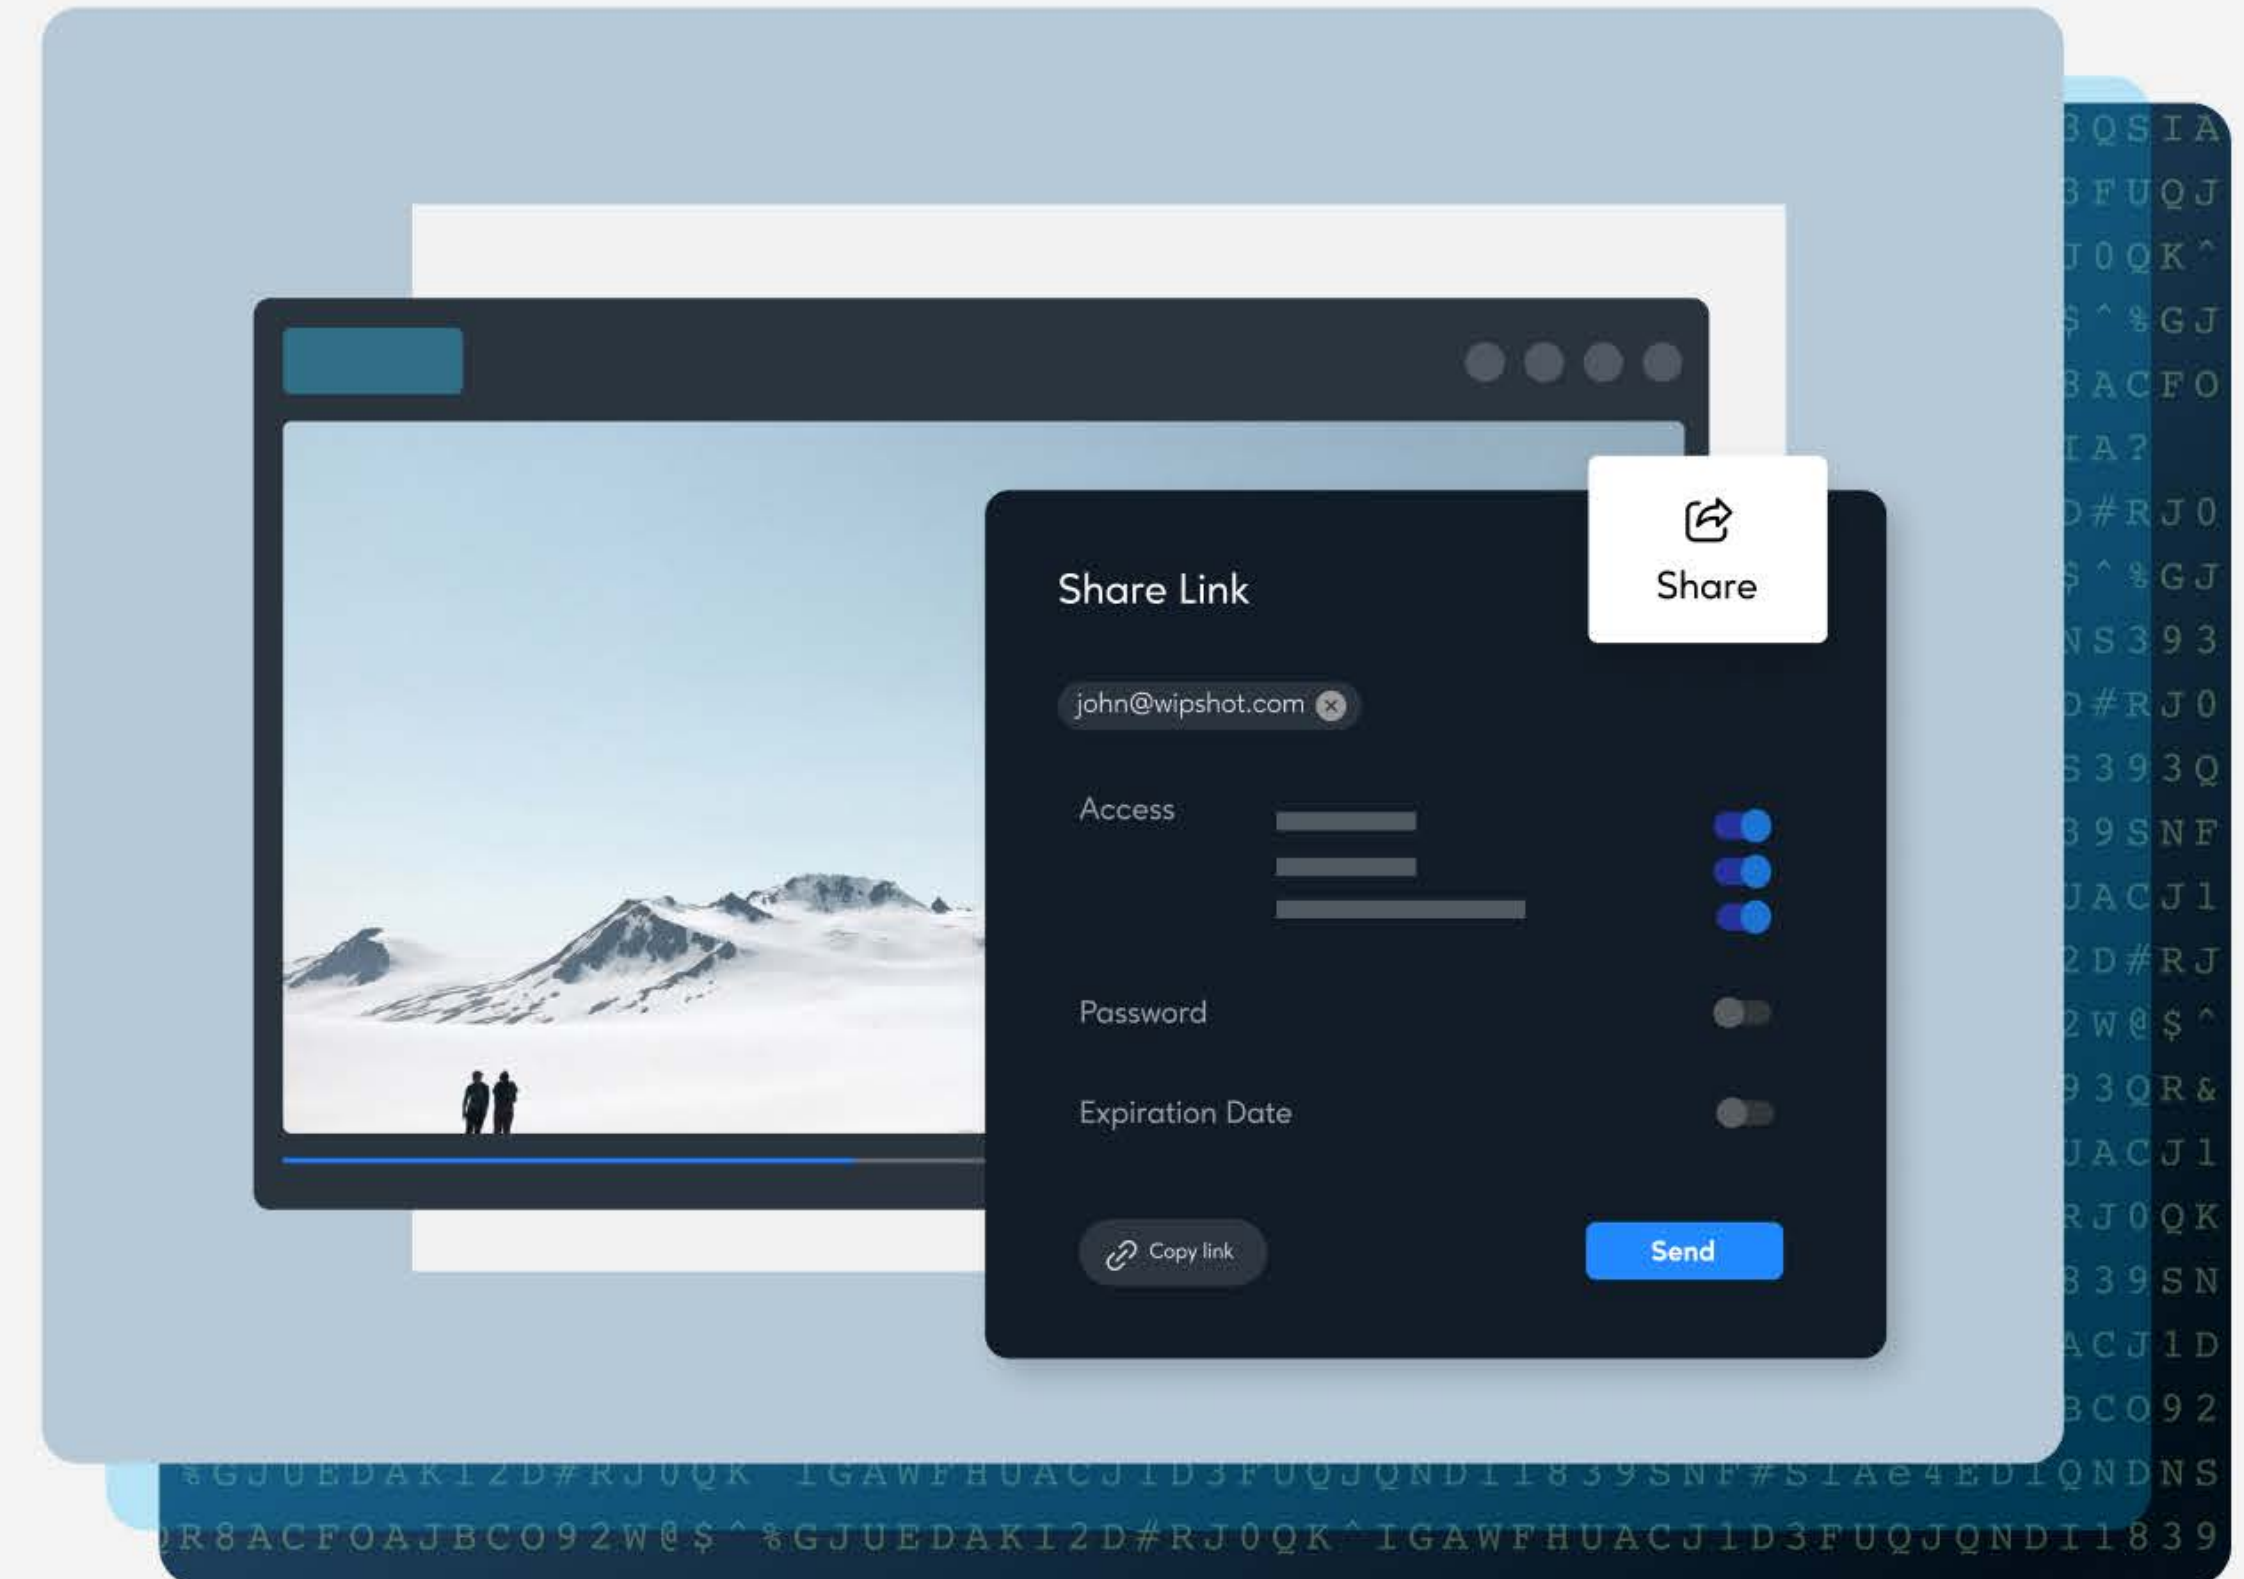

All communication is encrypted with SL/TIS-based JSON Web Token, and all data is encrypted with 256 bits for secure storage providing you the most robust security system for all your creative files.

Controllable Access Rights

Sharing outside the team? Protect your content with a password, set expiration, and manage access levels.

Designed with security as our highest priority, wipshot is synonymous with security.

Try It Out First

wipshot is suitable for individual or team use.
